

May 2025

Dear Parent/Carer

SPARX Reader

We're excited to let you know that we've partnered with Sparx Learning to start using their new reading platform, Sparx Reader.

It's really important to us that young people are able to practise careful, silent reading for a decent amount of time, without distraction. Sparx Reader reassures us as teachers and parents that focused reading is happening, and that readers of all abilities feel successful and motivated. **From Monday 9th June 2025 your child will be using Sparx Reader to complete weekly home learning.** Your child's home learning will be set on Monday and due on Sunday night every week. They are expected to read for at least 30 minutes per week to achieve their target of 300 Sparx Reader Points.

Students can choose from an appropriate range of ebooks at their reading level and as they read, they'll answer questions to check they're reading carefully. Careful readers earn points, meaning they can prove they've been focusing and ultimately climb the league table! Motivated readers who demonstrate consistent, careful reading can unlock Gold Reader. This means they can read any paper book from the library or from home by scanning in its barcode. We encourage you to watch [this series of short videos](#), explaining what Sparx Reader is and how it works.

How do they log in?

- Students log in at sparxreader.com. They will need to find their school and log in using their name, date of birth, and a username will be generated for them. They can then set their own memorable password. It is important that students write this information down and keep it safe.

Which devices are supported?

- Your child can access Sparx Reader on any device that connects to the internet with a web browser.

How can I support my child with their reading?

- Sparx Reader adapts to each student's reading level, so it's important that you don't help by answering questions for them. If you help them, Sparx Reader might think they're a very strong reader and show them books that are too difficult.
- You can help by providing a quiet space and a set amount of time for your child to focus on their reading homework each week.
- The best way to support your child is to ask them about the book they're reading; which aspects they're enjoying, which characters and events they've recently read about or what they think could happen next.

Motivation ♦ Commitment ♦ Care

How can I monitor the reading my child is doing?

- You are able to keep track of your child's reading by clicking through the link to the Parent Portal in your Sparx Maths weekly home learning email.
- On the Parent Portal, you can choose to view home learning progress for any Sparx Learning system your child is using. For Sparx Reader, you can see progress with the current and previous home learning, and browse books that your child has been reading as part of their current home learning.
- When your child finishes their book, we will send you an email celebrating their achievement!

What support is available at Minsthorpe Community College?

- If you do not have any access to the internet at home, students can do their reading at College in the library and on the LRC computers every afternoon.
- Your child will be reminded of the reading expectations every week in English lessons.

If you have any questions, please contact Mrs S Thompson or your student's English teacher.

Yours sincerely

S Thompson
