Dear Parents/Carers,

**Re: Subject: Important Update – New Digital Education Record App for Year 11**

We are pleased to introduce the [Department for Education's new "Education Record" app](#) for all Year 11 students, launching this summer. This initiative aims to modernize how exam results are accessed and streamline the transition to Post 16 education.

**What is changing?**

Instead of relying solely on paper, your child will be able to access their GCSE results and a broader record of their education (such as schools attended and key information) directly on their mobile device.

- **Secure Access:** The app provides a secure, digital, and verifiable record of qualifications.
- **Easier Enrolment:** Students can easily share these records with colleges, sixth forms, or training providers.
- **Results Day:** Results will appear in the app on results day, following in-person collection, preserving the traditional experience while adding digital convenience.

**Action Required for Parents/Students:**

1. **Download:** Please encourage your child to download the official "Education Record" app from the Google Play or Apple App Store. They will also have the opportunity to do this in College.
2. **Verify:** A member of school staff will help your child securely authenticate their identity in school.
3. **Scan:** A unique QR code will be provided in school to populate the app.

We believe this tool will make the transition to Post 16 education much easier for your child.

For more information, please visit the official DfE guidance page.

Yours sincerely,

*K McGowan*
